To Whom It May Concern:

I have had the pleasure of working with Crawford Construction Company on a couple of projects to date including the current Phase I of the Marketplace a River Park, an approximately 38 acre power center project in Fresno, California.

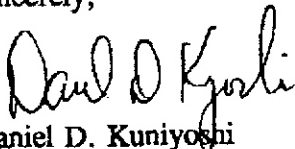

As on our prior project, Crawford Construction Company have performed their job on the Marketplace with a high level of service and professionalism.

They have displayed the ability to complete a project with the flexibility often necessary in construction projects by adapting to changes in the scope of work and time schedules along with weather constraints.

I would recommend their company to anyone who is looking for an excellent earthwork/paving contractor.

If you have any further questions, please do not hesitate to contact me at (209) 434-8922.

Sincerely,

Daniel D. Kuniyoshi  
Vice President
